BLINDTEX REDEFINING POLES

What differentiates Blindtex Signature Curtain Poles from a traditional curtain pole? Signature 38mm features an internal gliding channel, avoiding the need for curtain rings, giving the appearance of a pole but the ease & usability of a track.

Blindtex Signature Curtain Poles is uncompromising in bringing together precision engineering with considered product design for a curtain pole that performs as well as it looks.

POLE COLOURS

At Blindtex we've introduced a range of motorised curtain poles. The curtain poles are available in the following colours

Brass With Glass Finials

Black With Glass Finials

Gun Metal With Ball Finials

Nickel With Cylinder Finials

White With End Cap Finials

POLE SIZES

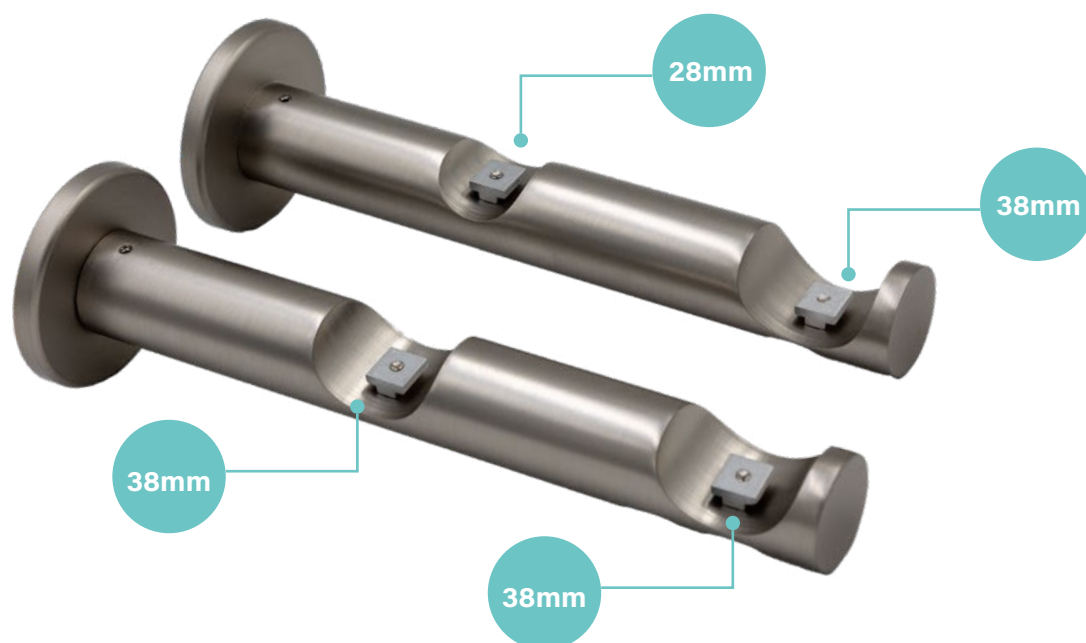

We offer premium curtain poles in two sizes: **28mm** and **38mm**.

The **38mm** pole offers added strength and versatility, available in both manual and motorised options, making it perfect for heavier curtains or modern smart-home integration. Both sizes are designed for durability, smooth operation, and stylish finishes to complement any interior.

The **28mm** pole is available in a manual version, ideal for lighter fabrics and a sleek, classic look.

RELATED BRACKET SIZES

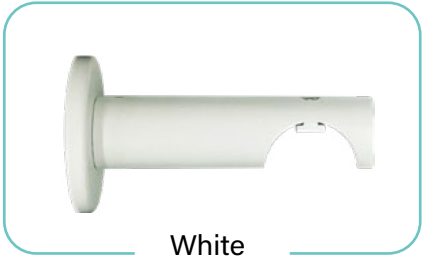

FITTING

Choose from a wide range of fitting brackets, whether wall or ceiling fix, with or without finials, deep or shallow curtain headings

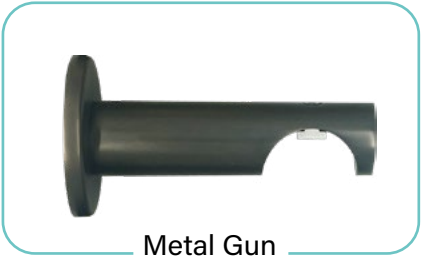

BRACKETS

We offer four top-fix brackets, as well as a range of face-fix brackets. For face-fix installations, double brackets are available to accommodate various combinations, including 38/38, 28/38, and other size pairings. These brackets are mounted on top of the pole and can be added as needed across the width, without affecting curtain movement or opening.

White

Metal Gun

Nickel

Black

Brass

Double Bracket

Typically, the 28mm track is used for the manual sheer curtain at the back, while the 38mm track is used for the motorised main curtain at the front, providing a clean and functional dual-layer setup.

With the double bracket, both curtains can be motorised, provided that a 38mm system is used for each pole

BRACKET SPECIFICATIONS

Bracket Size	Single Wall Bracket	Double Wall bracket		Single Ceiling Bracket	
Pole Size	38 mm	28-38 mm	38-38 mm	28 mm	38 mm
Depth	124 mm	217 mm	232 mm	72 mm	78 mm

38MM SIGNATURE POLE BRACKET QUANTITY

If centre join add one bracket if odd number

Width Meters	2000	2500	3000	3500	4000	4500	5000	5500	6000
Bracket qty	2	2	3	3	4	4	5	5	6

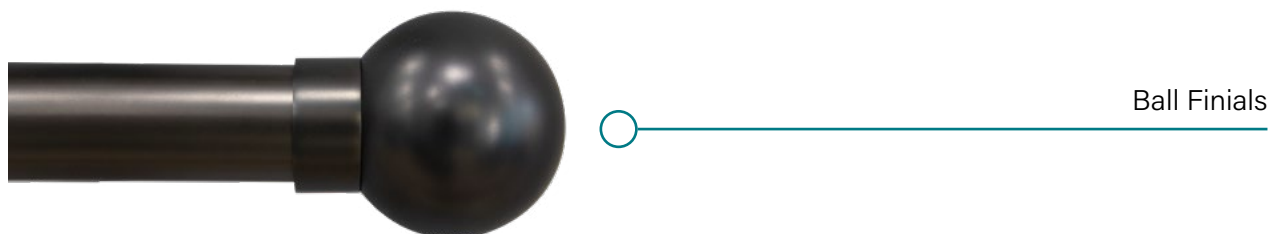

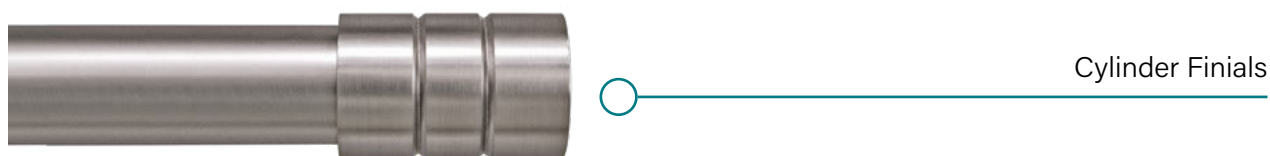

THE FINIALS

Blindtex includes a refined collection of finials that work well in contemporary, traditional and blended settings.

THE FINIALS

There are four finial options available, ranging from a simple end cap to an elegant glass globe

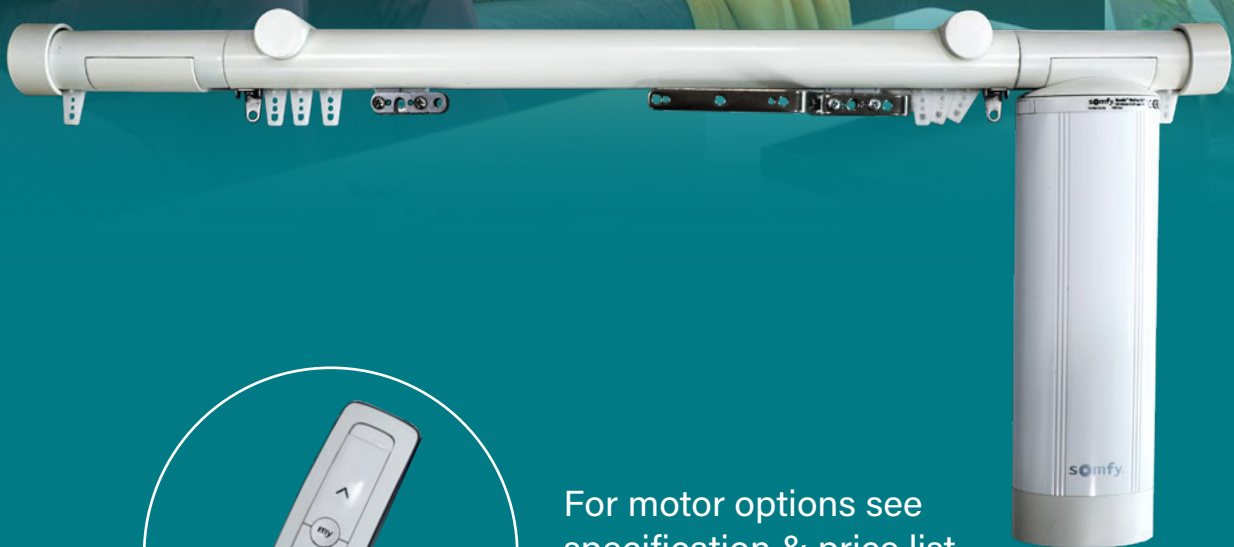

Finial	Size (Width Each) mm	Pole Cut Addition For Pair, mm
Ball	84	22
Glass	117	40
Cylinder	68	80
End Cap	20	34

Consider poles not finials when requesting the size

MOTORISATION

For motor options see
specification & price list

The curtain pole is compatible with both Somfy and Blindtex motors, supporting all Somfy ranges from Glidea to Movelite. It also works seamlessly with Blindtex curtain motors. Additionally, this pole can accommodate both pleated and easywave curtains, which hang neatly below the pole for a clean and elegant finish
